San Francisco, CA

Technical Skills

Programming: Python 3, JavaScript ES6+, SQL, CSS, HTML5
System Design: Monoliths, Microservices, Domain-Driven Design, Message passing, Event sourcing
Back-End: PostgreSQL, Django 4, RESTful API, FastAPI, MongoDB
Front-End: React, DOM Manipulation, React Hooks, Redux Toolkit

Application Development Experience

CruiseControl | Full Stack Engineer | *software solution for the vehicle service industry*   2023
- Constructed Pydantic models and migrations for integration with a PostgreSQL database
- Leveraged React Hooks for state management to build checklist child components; utilized GET, POST, PUT, and DELETE HTTP methods frontend and backend using React.js and FastAPI.
- Applied Agile methodologies when building authorization, issue boards, and CI/CD organization

Clone BnB | Backend Engineer | *connecting homeowners with short-term vacation renters*   2023
- Worked under an extremely limited timeline of two days and completed a minimum viable product, fully built out the backend and used React.js frontend with Bootstrap
- Designed Django models to accommodate foreign keys for rental property creation and amenities
- Implemented Django backend user authentication system with user sign up and login forms

Car Car | Full Stack Engineer | *dealership inventory management for sales and service*   2023
- Created poller for inventory data from SQLite database into microservice for vehicle information
- Implemented React Hooks and state management for data to clear and update upon submission
- Applied form creation with React.js and list views to save and display to the backend database

Professional Experience

JP Morgan - Private Client Banker, On-Duty Manager - Union City, CA   2017-2022
- Obtained FINRA Series 6, 63, California Life Insurance License, and Notary Commision
- Specialized in needs of high net-worth individuals by analyzing complete financial profile
- Worked closely with home lending advisors and investment advisors for wealth preservation

Chase Bank- Lead Associate of Operations - Sunnyvale, CA   2015-2017
- Supervised and trained bankers and tellers on new policy updates in relation to new regulations
- Worked alongside Branch Managers to plan monthly scheduling, accommodating for client traffic
- Managed branch cash levels while accommodating for client needs and mitigating risk factor

Education

Hack Reactor, *Software Engineering Immersive*   2023
Mimo Dev, *Web Development Certificate of Achievement*   2022
Mission College, *Studied Business Administration*   2016-2018
Over 1000 hours of coding, problem solving, data structures, and algorithms
